For each court appearance which was finalised during the twelve-month period only the outcome for the major charge is presented here. Excluded are procedural hearings, appeals and applications.

Each table refers to appearances by individual accused. For example, if four co-accused were tried and convicted jointly for an offence which they committed together, each would be recorded separately in the case outcome and sentencing tables. An individual tried or sentenced on two separate occasions within the same reporting period would be recorded twice.

The category 'pleads guilty' in the trial outcomes was introduced for the 1996 report. It covers cases in which there was a trial but the defendant pleaded guilty. In most instances, this was because the defendant changed plea to guilty after the trial had begun, but can also be where the trial was in relation to a count other than the major charge. Since the 1994 report these were grouped under 'guilty as charged' in the trial outcomes, whilst before that they were under the 'guilty plea - guilty as charged' heading.

The category 'major charge dropped' covers circumstances where the Director of Public Prosecutions either enters a *nolle prosequi*, does not proceed, withdraws the charge or declines to file an information. Prior to 1997 this was labelled '*nolle prosequi*'.

*The offences of *burglary and break and enter* were replaced by a new group of offences described as *serious criminal trespass*, taking effect on 25th December 1999.

For each court appearance which was finalised during the twelve-month period only the outcome for the major charge is presented here. Excluded are procedural hearings, appeals and applications. Each table refers to appearances by individual accused. For example, if four co-accused were tried and convicted jointly for an offence which they committed together, each would be recorded separately in the case outcome and sentencing tables. An individual tried or sentenced on two separate occasions within the same reporting period would be recorded twice. The category 'pleads guilty' in the trial outcomes was introduced for the 1996 report. It covers cases in which there was a trial but the defendant pleaded guilty. In most instances, this was because the defendant changed plea to guilty after the trial had begun, but can also be where the trial was in relation to a count other than the major charge. Since the 1994 report these were grouped under 'guilty as charged' in the trial outcomes, whilst before that they were under the 'guilty plea - guilty as charged' heading. The category 'major charge dropped' covers circumstances where the Director of Public Prosecutions either enters a *nolle prosequi*, does not proceed, withdraws the charge or declines to file an information. Prior to 1997 this was labelled '*nolle prosequi*'.

The category 'pleads guilty' in the trial outcomes was introduced for the 1996 report. It covers cases in which there was a trial but the defendant pleaded guilty. In most instances, this was because the defendant changed plea to guilty after the trial had begun, but can also be where the trial was in relation to a count other than the major charge. Since the 1994 report these were grouped under 'guilty as charged' in the trial outcomes, whilst before that they were under the 'guilty plea - guilty as charged' heading.

As of the 1995 report, the distinctions between different drug amounts have been removed. These corresponded to the distinctions in the Controlled Substances Act which set different penalties depending on where the amount of drug fell in relation to these levels. The failure of court staff to nominate the levels set out in the Information laid by the DPP meant that the majority of cases were going into the 'amount unstated' category. Pending a satisfactory resolution of this, the sub-categories have been collapsed.

The category 'major charge dropped' covers circumstances where the Director of Public Prosecutions either enters a *nolle prosequi*, does not proceed, withdraws the charge or declines to file an information. Prior to 1997 this was labelled '*nolle prosequi*'.

* Average non-parole periods may occasionally exceed average sentence lengths where cases receive a sentence which is cumulative on another sentence or to be served at the expiration of another sentence. The sentence length shown in the average sentence length column is the sentence for the major charge found guilty alone, and thus excludes sentences of imprisonment applying to other charges in the case, whereas non-parole periods are set in relation to the total sentence for all offences convicted. Average sentence length excludes indeterminate sentences such as life imprisonment or indefinite detention, but average non-parole period includes data from cases with life sentences, so the numbers of cases on which these two averages are based may differ.

Major penalty is the most serious penalty handed down. Major charge found guilty is the charge receiving the most serious penalty. (See Appendix A for more details.)

**The offences of *break and enter* were replaced with a new group of offences described as *serious criminal trespass*, taking effect on 25th December 1999.

* Average non-parole periods may occasionally exceed average sentence lengths where cases receive a sentence which is cumulative on another sentence or to be served at the expiration of another sentence. The sentence length shown in the average sentence length column is the sentence for the major charge found guilty alone, and thus excludes sentences of imprisonment applying to other charges in the case, whereas non-parole periods are set in relation to the total sentence for all offences convicted. Average sentence length excludes indeterminate sentences such as life imprisonment or indefinite detention, but average non-parole period includes data from cases with life sentences, so the numbers of cases on which these two averages are based may differ. Sentences of indefinite detention are included with life sentences. Major penalty is the most serious penalty handed down. Major charge found guilty is the charge receiving the most serious penalty. Average non-parole period (months)	7	9	12	20	24	33	37	46	55	56	93	150	192	34	

The average head sentence excludes cases sentenced to life imprisonment and the average non-parole period excludes cases where a non-parole period was not set. Indefinite detention is grouped with life imprisonment for the purposes of this table. The number of life sentences shown in this table may exceed the number in Table 3.12 as that table shows new life sentences only for the major charge found guilty, whereas the present table includes persons already serving life sentences who have received additional penalties for fresh offences, since the total effective head sentence includes existing sentences.

The ranges specified in the table do not include the upper value mentioned. Thus '1 year up to 2 years' begins at one year exactly and goes up to but does not include 2 years.
