Age is at time of apprehension. The counting rules used here differ from those used in *Crime and Justice* reports prior to 1998. Previously, all offences and all counts of the same offence listed on the apprehension report were included. Since 1998, multiple counts of the same offence have been omitted. The 2001 data are therefore not comparable with those of reports prior to 1998. Racial identity is based on the apprehending officer's assessment of the person's appearance at the point of apprehension.

The totals in this table may be slightly greater than the sum of male and female totals because sex is not always known.

This applied to 54 offences cleared, 36 apprehension reports and 26 discrete individuals.

In the 'Totals' row, each apprehension report is counted once, irrespective of the number of offence types recorded on that report. Similarly, each alleged offender is counted once, irrespective of how many times he/she was apprehended, and how many offences were involved. As a result, for apprehension reports and alleged offenders, these totals are less than the sum of the numbers recorded for each offence group in the body of the table. If the one apprehension report contained more than one offence group, it would be counted separately in each group but only once in the 'Total' row. Similarly if, during 2001, the one person was charged with more than one offence type, he/she would be counted separately in each offence group but once only in the 'Total' row.
