The totals in this table may be slightly greater than the sum of male and female totals because sex is not always known.

This applied to 29 offences alleged, 18 apprehension reports and 17 discrete individuals.

In the 'Totals' row, each apprehension report is counted once, irrespective of the number of offence types recorded on that report. Similarly, each alleged offender is counted once, irrespective of how many times he/she was apprehended, and how many offences were involved. As a result, for apprehension reports and alleged offenders, these totals are less than the sum of the numbers recorded for each offence group in the body of the table. If the one apprehension report contained more than one offence group, it would be counted separately in each group but only once in the 'Total' row. Similarly if, during 2003, the one person was charged with more than one offence type, he/she would be counted separately in each offence group but once only in the 'Total' row.

As a result, for apprehension reports and alleged offenders, these totals are less than the sum of the numbers recorded for each offence group in the body of the table. If the one apprehension report contained more than one offence group, it would be counted separately in each group but only once in the 'Total' row. Similarly if, during 2003, the one person was charged with more than one offence, she would be counted separately in each offence group but once in the 'Total' row.
