The totals in this table are slightly greater than the sum of the male and female totals because sex is not always known, even though age may be known. In 2000 there were 53 incidents involving 47 victims, where the victim's sex was unknown. This included 52 incidents involving 46 victims in the 0-9 year age group and 1 offence (1 victim) in the 60 and over age group. Age is at date of reporting to police. Age greater than 99 was set to unknown.

Total victimisations: each victim is counted once per offence group per incident report.

Discrete victims per offence group: each victim is counted once only per offence group in 2000.

Discrete victims per age group: each victim is counted only once per age group in 2000.

Discrete victims: each victim is counted once only in 2000.
